perhaps easy to gauge the situation. The cultivation of Tapioca mainly is very poor.

(4) There has been a fall-off in the no. of persons employed during the week it is very marked in the Karur distt, the no. being 413 less than in the previous week. The R.C. has not furnished any reasons for this decrease and he may perhaps be asked to do it now.

(5). The D.C. Tuticorin reports that food grains are being exported beyond the frontier from the Chemmanjagar Taluk. He may perhaps be requested to watch the situation closely by getting weekly returns of exports from the cookals on the roads leading to the frontier.

This copy is unmade

(6). Fodder difficulty is being felt in Karkote, Mundgod & Chellakere Taluks. Water difficulty is felt almost everywhere.

(7). Takavi Loans have been granted freely.

(8) Gratuitous relief was given to 355 persons in the Tumkur district during the week.
